The Riviera all 4 Seasons

Sea

The Regional Conero Park is born on a green promontory that morphs into a cliff over the sea. Thanks to its characteristic shape, the coast is formed by stunning and unique beaches. It ought to be mentioned between the many, Portonovo Bay, the Urbani and San Michele beaches in Sirolo, all easy to access. For those who love something more intriguing and wild, we reccomend the Mezzavalle beach, accessible only by trail, or the beach at Le Due Sorelle reachable only by canoe (rented) or through a ferry-boat of the Riviera. For families with kids, there are beaches with a very easy access and lots of amenities like the areas of Marcelli and Numana Bassa. For our four-legged friends, in Marcelli still, the "Crazy Beach" is the place to go, where you can relax and have fun with them in tranquillity.

Sports & Nature

If you are a lover of sports and the outdoors, our area is perfect for you! Whenever you visit the Riviera del Conero during the year, you will always find a vast choice of activies and itineraries available. Being an ecological preserve, the Conero Park is the ideal place to organize walks and family picnics, surrounded by nature. For the curious ones, it is possible to hire a local guide who will give you a tour in depth of the area. There are a lot of hiking trails on the Conero, some accessible also by mountain bike and on horse. In our establishment we are very equipped for bike maintenance and bike rentals. Furthermore, in the Conero area you will have the possibility to try other activities such as kitesurfing, canoeing, horse riding or golf.

Ancient Villages

Around the Conero, are situated cities and villages full of history, art and culture, influenced during time by the closeness to the sea. All these place, for different reasons, are rich of traditions. It is possible to visit unique museums, churches and historical centers. Highly recommended is Loreto Basilica, one of the most famous catholic sites of the world, also a very importand gothic-reinassance monument in Italy. Other destinations not to miss are the gorgeous medioeval citadel in Offagna, or the fascinating Caves of Camerano, an ancient secrect underground city made of tunnels and niches. Other towns which stand out for individuality and tradition are the center of Ancona, Castelfidardo, town of music and accordians, and Recanati, hometown of the famous poet Giacomo Leopardi.

Food & Wine

Ideal area for morphology, between the sea and the mainland, the Conero area developped strong culinary traditions. Every town has its own speciality and it proposes old flavors with typical and savory recipes, often prepared with local products at 0 km. It goes from the sea specialities, like stockfish, mussels and broths, to the typical land product like chicken cacciatora, roasted rabbit, stuffed pigeon, or even more like cured meats, oil, wine and honey. In every season of the year, they organize quite a few country festivals in the Riviera towns, unique occasions to try out the most peculiar products of the local traditions. On the green hills of the Conero, warmed by the sea, a good variety of wine is produced; amongst the many, the one that stands out is the Rosso Conero, wine that you can sample at its own festival that is celebrated in Camerano every year.
